#### Totem

Totem is a story about a child who wanders in a world dominated by nature.

During his journey he meets an unknown figure who begs him to stop: a Totem.

The Totem has deep, hard and complicated roots.

The child, on the other hand, is a wild animal, free and devoid of any form of bond; it is what the Totem is no longer, its last contact with that freedom and lightness of the past.

The desire to grow, to run to get to something in contrast to that of going back, in a less heavy body.

To escape, the child finds himself in a forest where will continue his journey, coming into contact with different figures, friends and not.

#### Say Grace

Say Grace is the story of Teresa, who, although now a nun, never got over the woman who broke her heart twelve years before, Grace. But when Grace shows up in church, Teresa has a life-changing choice to make.

As the narrative cuts back and forth between present day in the 80s and glimpses of their life together in 1968, we understand how drastically Teresa's life has changed - from a youth full of light-heartedness, freedom and love to a more composed existence meant to serve a higher purpose.

But what is the life Teresa truly wants for herself? And will she be brave enough to commit to it?
