### **HUB — On Their Own Skin**

Director: Francesco Barozzi

A precarious couple live in a caravan on the fringes of society. While he works even at night, she, unemployed and always alone, feels invisible and seeks help. But the intentions of the altruistic are not always the best.

### **Story Of Your Life**

Director: Salvatore de Chirico

Tommy's entire life flows in front of us like a movie. Through taped memories, his own stories and everything that has stood the test of time. Eighty years of a life that could be anyone's. But whose is it really?

## **Stanza 5**

Director: Rosario Capozzolo

Inspired by a true story. Inside a hospital ward, Ilde, an elderly woman who survived Covid, is letting herself die because she has no one left outside. The arrival of a young roommate, Simona, questions what is now taken for granted by doctors.

## **The Dependent Variables**

Director: Lorenzo Tardella

In a dark, velvety theatre there is a first kiss between Pietro and Tommaso. When the lights come back on, however, the two students have different expectations of what might follow. The chaos of awakening desire in its complexity and sensuality is told and made almost physically tangible through looks and gestures, approach and retreat, hope and fear.
